

Fully integrated 1 1/2 bowl sink and drainer combination.

Cutout for inset hob

Continuous stainless steel worktop with integral back and side upstands.
Hob cutout.

Specifier: Thinking Space Limited
Contractor: Urban Edge Group Limited

Stainless steel worktops with integrated back and side upstands (edge 10) were specified in this smart residential apartment in the City of London.

The hob run and sink run oppose one another in a galley arrangement. The front edges are plain (edge 7) and the sinks include a 'wet zone' provided by the fully integrated sink and a half with drainer.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
