

Integrated sinks

Pull-out worktop section to reveal storage below

100mm edge profile

5 x 1.2m island worktop with integrated sinks and hob

Room Type: Domestic kitchen, Bedfordshire
Specifier: Nicolas Tye Architects

Large stainless steel island worktop with double bowl sinks, ultra-deep square edge, cut-out for hob and special sliding section to reveal additional storage.

Integral sinks

Sinks are seamlessly integrated (no joins or crevices or dirt-traps) in the specified location. Vola single lever mixer tap with swivel spout.

Sliding section

A sliding section was introduced to provide concealed storage for items such as toaster and kettle.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
