

V131 WC pan.

Special DDA compliant corner WC.  
Seat Pads.

Special DDA compliant corner WC.

**Building:** The Pavilion, Battersea Park  
**Sector:** Local Authority

A series of stainless steel WC pans by GEC Anderson were specified for public lavatories in London's Battersea Park.

A special corner adaptation was produced to provide a solution to services that were located to the side of the WC. By creating a special boxing, the pipework has been fully concealed, thereby preventing vandalism and providing a totally hygienic solution.

The stainless steel contrasts nicely with the vivid yellow colours adopted.

Battersea Park comes under the London Borough of Wandsworth and the new facility is considered an important advancement to the amenities of this busy recreation area, just south of the river Thames.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
