

Stainless steel worktops.

Integral sink bowls and back upstand.

Stainless steel worktops.

Building:	Roath Fire Station
Sector:	Emergency Services - Fire
Room Type:	Small commercial kitchen / Mess room
Contractor:	Steelplan Kitchens

Stainless steel worktops, by GEC Anderson, were deployed in the refurbishment of the mess room at Roath Fire Station in Cardiff. The kitchen units were supplied by Steelplan Kitchens.

The continuous, high quality, stainless steel worktops provide a highly professional look and feel to the busy area within this important emergency facility. The requirements of hygiene, durability and safety are met by the worksurfaces that feature integrated sink bowls as well as upstands to walls.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
