<b>Room Type:</b>	Ward Kitchen
<b>Client:</b>	Barts NHS Trust
<b>Contractor:</b>	John Sisk & Son Limited

---

A full stainless steel ward kitchen was provided by GEC Anderson in the Royal London Hospital, part of the Barts NHS Trust.

Working with main contractor, John Sisk & Son, GEC Anderson supplied the entire kitchen, comprising sinks and worktops, stainless steel legs and supports, base cabinets and wall cabinets. Some of the units were mobile (on castors) to facilitate cleaning.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
