A range of specialist fittings were supplied by GEC Anderson, for use the police forensic laboratory.

These included a large height adjustable examination table; cabinets shelving and work surfaces with integrated bowls, upstands and special drainers. Perforated, height adjustable stepless shelving (GEC Anderson V90 System) was also supplied.

Single-piece L-shaped stainless steel worktop with integral bowls, integral upstands and perforated draining rack. Shelving and cabinets with 'D' handles.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
