---

Wapping Hydraulic Power Station has been renovated as part of the Wapping Project Arts Programme.

Architects, Grimshaw and Partners specified stainless steel sanitaryware by GEC Anderson in the lavatory areas. Fittings include wall mounted stainless steel wash troughs and stainless steel trough urinals.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
