

Domestic Kitchen with Curved Breakfast Bar

Curved breakfast bar.

Deep edge profile with inset hob.

Stainless steel worktops with deep front edge profile and integrated sinks.

Room Type: Domestic kitchen

GEC Anderson stainless steel worktops were put to good effect in this smart domestic kitchen.

A curved breakfast bar forms the centre piece of the design but there are worktops to two of the perimeter walls. Extra deep edge profiles were specified and, of course, sinks are fully integrated within the worksurface.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
