<b>Building:</b>	Victoria & Albert Museum of Childhood
<b>Sector:</b>	Culture & Arts
<b>Room Type:</b>	Class / art rooms
<b>Specifier:</b>	Caruso St John Architects
<b>Contractor:</b>	Kier Construction

Split-level stainless steel sinktops and splashbacks were specified in the educational visitor area as well as to the baby-change units and washrooms.

20mm edge (7) provide a clean and simple aesthetic and the worktops include integrated sink bowls Le50. Splashbacks were added for additional durability and functionality. All in EN 1.4301 grade brushed satin stainless steel.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
