Room Type: Playground

An imaginative playground project included custom stainless steel fabrications by GEC Anderson.

Receptors or various sizes were produced to meet an exacting specification that provide a stimulating space for kids to play.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
