New GEC Anderson stainless steel worktops lift the shared kitchen environment within the college accommodation. The practical, durable yet aesthetically pleasing worktops feature integral upstands and wet zones around sinks for ultimate functionality combined with an uncluttered appearance.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
