Compact worktop with A34 sink and bespoke high level oven housing

Compact sinktop with A34 sink bowl and bespoke high level oven housing

Room Type: Domestic kitchen, Knightsbridge

Here is a great example of how to maximise the use of space within a very compact central London studio apartment.

GEC Anderson supplied and installed the stainless steel worktop, incorporating sink and hob, as well as the oven housing above.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
