Building:	Roof Terrace, Angel Gardens, Manchester
Sector:	Development
Room Type:	Bars / restaurants
Client:	Moda Living Limited
Contractor:	Briggs & Forrester Limited

Angel Gardens is one of Manchester's newest, purpose built, residential developments and is located in the fashionable Northern Quarter of the city.

Residents of the development enjoy a 'clubby' feel to their living environment with a number of exclusive facilities included within the high-rise building. As well as cinema and gym areas, the roof terrace on the 9th floor boasts not only a barbeque / bar / entertaining / dining area but also a football pitch. Included in the roof-top oasis is an outdoor kitchen, supplied and installed by GEC Anderson.

Comprising of stainless steel base cabinets, a continuous stainless steel worktop with integral sink and back upstand, the kitchen is used for functions and generally to cater for requirements of visitors to this level of the building.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
