

Worktop with A50 sink and flushmount hob

Seamlessly integrated A50 sink

Seamless integration of sink A50 combined with 15mm edge profiles

15mm edge profiles (edge 7) to island and straight run worktops

Specifier: Client
Contractor: Kingwood Construction Ltd

GEC Anderson stainless steel worktops with ultra-thin edge profile and integrated sink were included in this recent residential project in London.

The sinktop is 4.8m long and was produced in one, continuous piece and includes sink A50. The opposing island also has the ultra-thin (15mm) edge but incorporates a breakfast bar.

Worktops are in EN 1.4301 grade brushed satin stainless steel.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
