

50mm edge profiles with rivets

Integral sink A34

Brushed satin stainless steel with integral sink

Island worktops

Sector: Kitchen Retail
Room Type: Domestic kitchen, Surrey
Client: Turner & Foye

A distinctly different appearance was created by kitchen designers Turner and Foye.

A total of three stainless steel worktops were included - all with the rivet edge detail requested by their client.

Series A sink A34 was integrated within one of the islands.

All worktops are in EN 1.4301 grade brushed satin stainless steel.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
