Specialist lighting design company PSL, were looking for something a little different for their trendy new Bermondsey showroom. Designers, James Plumb obliged with a beautifully crafted and truly unique design that involved much concrete and some special stainless steel kitchen units from GEC Anderson.

Drawer cabinets, base cabinets and appliance doors were supplied and installed by GEC Anderson, following the development of the detailed designs.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
