

Fully shrouded wash basin V216

Fully shrouded wash basin V216

Room Type: Washroom

The fully shrouded stainless steel wash basin V216 not only is very secure against tampering and vandalism. It has a distinctive and clean appearance with totally concealed pipework.

Produced in brushed satin stainless steel to EN 1.4301, the highly functional basin is suited for use in any environment, from highly secure premises to general washrooms and workshops.

Founded in England in 1962, GEC Anderson has pioneered the development of made-to-measure stainless steel products. Today, the company's range also includes standard and modular stainless steel options. Products include sinks, worktops, cabinets, shelving, splashbacks, doors and sanitaryware for use in domestic, commercial and specialist environments. All products are manufactured to ISO 9001 and backed by a comprehensive support service from planning and product specification to installation and maintenance.
